

Step-Through Electric Bicycle with Integrated Storage

This electric bicycle features a step-through frame for easy access and a rear hub motor for propulsion. It is equipped with integrated lights, mirrors, and a rear storage compartment.

Overview

Versatile Step-Through Electric Bicycle

This step-through electric bicycle is designed for accessibility and convenience, making it an ideal choice for urban commuting and daily errands. Featuring an integrated rear storage compartment and a powerful rear-wheel electric motor, it offers a practical, eco-friendly transportation solution. The design prioritizes rider comfort and safety with a front suspension fork, padded seating, and enhanced visibility through integrated front and rear lights.
