

Step-Through Electric Bicycle with Passenger Seat

This electric bicycle is designed with a step-through frame for easy mounting and dismounting. It features a rear passenger seat with a backrest, making it suitable for carrying a passenger.

Product Overview

Urban Commuter Solution

This step-through electric bicycle is engineered for efficient urban commuting and comfortable leisure riding. Designed with accessibility in mind, the frame allows for easy mounting and dismounting, while the integrated rear passenger seat with a backrest provides added utility for carrying a second rider. Equipped with essential safety features including front and rear lighting, side mirrors, and front suspension, it offers a balanced and reliable transport option for city environments.
