

Step-Through Electric Bicycle with Passenger Seat

This electric bicycle features a step-through frame, facilitating easy mounting and dismounting. It includes a rear seat with a backrest, providing comfort for a passenger.

Overview

Comfortable Urban Mobility

This step-through electric bicycle is designed for ease of use and passenger comfort. Featuring a low-frame geometry, it allows for effortless mounting and dismounting, making it ideal for urban commuting. Equipped with a dedicated rear passenger seat and backrest, it offers a practical solution for carrying an additional rider safely and comfortably.
