

Step-Through Electric City Bike

This electric bike is designed with a step-through frame for easy mounting and dismounting. It is equipped with mudguards and a luggage rack, making it suitable for urban commuting.

Overview

Designed for Urban Mobility

This step-through electric city bike is engineered for efficient urban commuting and short-distance travel. Its accessible frame design allows for easy mounting and dismounting, while the integrated rear-hub motor provides reliable power delivery for city streets. Equipped with essential features like mudguards, a luggage rack, and front lighting, this bike offers a practical, comfortable, and stylish solution for daily transportation needs.
