

Step-Through Electric Scooter with Basket

This electric scooter features a step-through frame, a front basket, and rear storage. It is equipped with lights and mirrors for safe road use.

Overview

Efficient Urban Mobility

This step-through electric scooter is designed for reliable and convenient daily commuting. It features a robust 350W motor and a 12Ah battery, providing a practical range of up to 60km on a single charge. With safety-focused features like double-safety EABS brakes, front and rear suspension, and LED lighting, it offers a secure and comfortable ride for urban environments.
