

Step-Through Frame City Bicycle

This step-through frame city bicycle is designed for comfortable urban riding. It features a lightweight steel frame, single-speed drivetrain, full fenders, and a sprung saddle.

Overview

Urban Commuting Made Simple

This 24-inch city bicycle features a classic step-through frame designed for accessibility and comfort during urban commutes. Built with a lightweight steel frame and a simple single-speed drivetrain, it offers a smooth, reliable riding experience on flat terrain. The inclusion of full fenders, a sprung saddle, and upright handlebars ensures that every ride is as comfortable as it is stylish.
