

Step-Through Frame Electric Bicycle with Basket

This electric bicycle is designed with a step-through frame for easy access and comfortable riding. It comes equipped with a front basket and rear rack, making it suitable for urban commuting and leisure.

Overview

Urban Commuter Utility

This step-through electric bicycle is engineered for convenience and comfort in urban environments. Featuring a practical step-through frame design for easy mounting, it comes equipped with a front basket and rear seat, making it ideal for daily commuting or leisure trips. The integration of suspension forks and a rear shock absorber ensures a smooth ride across city terrain.
