

Stereo Foldable Headphone with Microphone

These stereo headphones feature a microphone and a foldable design. The headphones provide clear audio quality and are comfortable to wear for extended use.

Overview

Stereo Foldable Headphone with Microphone

These stereo foldable headphones are designed for versatility and comfort, featuring a lightweight, portable construction perfect for daily use. With a 40mm speaker driver and a frequency range of 20-20,000Hz, they deliver clear, reliable audio performance. The integrated microphone and standard 3.5mm plug ensure compatibility with a wide range of devices for communication and media playback.
