

Stereo Headphones with Mic

These stereo headphones feature circumaural earcups and a padded, adjustable headband for a comfortable, personalized fit. The closed-back design helps isolate external noise to enhance the listening experience.

Product Overview

Professional Stereo Audio Solution

These stereo headphones are designed for clear, reliable audio performance in professional and personal settings. Featuring a 40mm speaker unit and a circumaural design, they provide balanced sound quality with effective noise isolation. The inclusion of an integrated microphone and a durable 2.2-meter cable makes them a versatile choice for communication and media consumption.
