

Street Light Fixture

This street light fixture is designed for efficient and reliable illumination of roadways, parking lots, and other outdoor areas. It features a durable housing and optimized optics for uniform light distribution.

Product Overview

High-Performance Outdoor Illumination

The ZD918(A/B) is a high-performance street light fixture engineered for efficient and reliable illumination in demanding outdoor environments. Designed for roadways and parking lots, it features a durable housing and optimized optics that provide uniform light distribution. This fixture is built for long-lasting performance, easy maintenance, and reduced energy consumption.

Technical Specifications

Maintenance & Design

- Optimized optics for uniform distribution
- Durable housing construction
- Engineered for easy installation
- Low maintenance requirements

Configurations

Available in multiple configurations • Compatible with various light sources

Suitable Applications

Roadways, Parking Lots, General Outdoor Areas
