Submersible Water Pump with Float Switch

This submersible pump is designed for efficient water removal and drainage. It features a robust motor, durable construction, and float switch for automatic operation.

Product Overview

High-Efficiency Submersible Pump

This submersible pump is engineered for reliable water removal and drainage tasks. Featuring a robust motor and durable construction, it is built to withstand demanding environments. The integrated float switch allows for fully automatic operation, making it an ideal solution for sump pits, dewatering, and general water transfer applications.

Technical Specifications

Operation Mode
Automatic • Submersible

Model Identifier	V450
Primary Applications	Dewatering, Sump Pits, Water Transfer
