Product Overview

Professional Silent Power Solution

This diesel generator is engineered specifically for demanding rental applications where reliability and acoustic performance are critical. Featuring an advanced airflow design and a high-performance residential muffler, it operates at a remarkably low noise level of 60dBA. The unit is built for durability with a fully bundled fuel tank and powder-coated steel canopy to resist harsh environmental conditions.

Performance Metrics

Rated Power Output

16 kVA

Power Capacity

60 dBA

Noise Level

Technical Features

Compatible Alternators

- Mecc Alte
- Stamford
- Leory Somer

Compliance

ISO, CE

Engine Compatibility

Perkins

Design & Utility

Mobility & Transport

Top lifting points • Forklift pockets • Integrated eyelets • Mounted on wheels

Maintenance

Holistic disassembly canopy with large access doors for daily coolant and oil checks
