

# Super Silent Diesel Generator Set

The super silent diesel generator set is designed for reliable power generation with minimal noise. Enclosed in a soundproof canopy, it is suitable for environments where quiet operation is essential.

## ADDITIONAL IMAGES

## Product Overview

### Professional Power Solution

The ROD-12000S is a high-performance, super silent diesel generator designed for seamless operation in residential, commercial, and industrial environments. Featuring a 2-cylinder air-cooled diesel engine, this unit offers a reliable output of 12kVA while maintaining low noise levels through its soundproof canopy. Built for durability and ease of use, it includes essential safety systems and an intuitive control panel to ensure consistent performance for critical power needs.

## Technical Specifications

### Rated Power Output

**12 kVA**

Output

### Engine Type

292F 2-Cylinder Air-Cooled Diesel

## Key Features

### Primary Advantages

- Super silent operation with soundproof canopy
- Automatic shutdown for low oil pressure
- Automatic shutdown for high temperature
- Easy-to-read control panel for monitoring voltage, current, and frequency
- Sturdy construction with vibration-reducing base

## Warranty and Compliance

### Warranty Coverage

2 Years

### Key Attributes

Silent Operation, Diesel Powered, Air-Cooled, 2-Cylinder
