Overview

Professional Power Solutions

This super silent diesel generator provides a steady, reliable power supply suitable for diverse environments ranging from residential and office backup to demanding industrial and mining operations. Designed with a soundproof and weatherproof canopy, it balances high-performance power generation with minimal noise impact. The unit incorporates a smart control system featuring advanced protection functions to ensure safe operation and long-term durability in varied conditions.

Technical Specifications

Key Operational Features

- Super silent soundproof enclosure
- Weatherproof protective canopy
- Smart protection control system
- High-efficiency alternator integration

Safety & Protection

Overload Protection • Low Oil Shutdown • High-Temp Shutdown • Weatherproof • Soundproof

Suitable Applications

Residential, Healthcare, Commercial, Industrial, Mining, Outdoor Operations
