

Surround Sound Speaker Set

This surround sound speaker set is engineered to deliver an immersive audio experience. The speakers feature a multi-driver configuration, including a tweeter, midrange, and woofer, to ensure a full range of sound reproduction.

Product Overview

Immersive Surround Sound Experience

This surround sound speaker set is engineered to deliver a high-fidelity audio experience, perfect for home theater setups, music, and gaming. Featuring a sophisticated three-way, three-unit driver configuration, these speakers ensure clear and detailed sound reproduction across the full frequency range. The elegant design, highlighted by a piano-paint plywood finish and a 15-degree inclined baffle, makes this system a stylish addition to any professional or home environment.
