

# Sway Bar Stabilizer Link

This stabilizer link connects the sway bar to the suspension components. It reduces body roll during cornering, improving stability and handling.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Sway Bar Stabilizer Link

This high-quality stabilizer link is engineered to connect the sway bar to vehicle suspension components, effectively reducing body roll during cornering. Featuring durable steel and rubber construction with precision ball joints, it provides smooth, reliable articulation for improved driving stability. Designed for a precise fit, this component ensures optimal suspension function, enhanced handling, and long-lasting performance.

## Technical Specifications

OEM Part Number	377407365C
Compatible Vehicles	VW Golf

## Material Composition

### Materials Used

- Steel
- Rubber
