Switzerland Style Welding Torch with Interchangeable Tips

This Switzerland style welding torch features durable brass construction and precise control valves. It includes multiple interchangeable tips suitable for various welding applications, along with an ergonomic handle.

Product Overview

Professional Performance

This Switzerland-style welding torch is engineered for medium-duty welding applications with a capacity of up to 6mm. Featuring robust stainless steel gas tubes and precision pin valves, it provides exceptional durability and fast, accurate flame adjustment. Designed for operator safety, this torch incorporates a gas mixer tip nozzle and adheres to the EN ISO 5171 standard.

Technical Specifications

Welding Capacity

6 mm
Maximum Welding Range

Tip Performance Data

Tip No.	Orifice (mm)	Range (mm)	Length (mm)	Oxygen Pressure (Bar)
1#	0.7	0.5-1.0	365	2
2#	1	1.0-2.0	385	2
3#	1.3	2.0-4.0	405	2.5
4#	1.5	1.0-6.0	425	3

Construction & Features

Standards Compliance

EN ISO 5171

Included Tip Nozzles

- 1#
- 2#
- 3#
- 4#

Construction Materials	Stainless Steel Gas Tubes, Brass Construction, Stainless Steel Valves
