

Switzerland to IEC C7 Power Cord

This power cord features a Switzerland 2-pin plug on one end and an IEC 60320 C7 connector on the other. It is designed for connecting devices with a C8 inlet to a Swiss power outlet.

Product Overview

Professional Swiss Power Connectivity

This Switzerland 2-pin plug to IEC 60320 C7 power cord is engineered for reliable connectivity in European applications. Designed for safety and durability, it features a moulded construction compatible with various small electronic devices. The cable is fully compliant with Swiss SEV standards, ensuring high quality for professional use.

Technical Specifications

Connector Configuration

- Switzerland 2-pin plug
- IEC 60320 C7

Maximum Voltage	250 V
Compatible Cable Profiles	H03VVH2-F, H05VVH2-F
Conductor Cross-section	2 x 0.5-0.75mm ²

Compliance & Availability

Certifications

Swiss SEV

Available Customizations

- Customer specified length
- Customer specified color

Minimum Order Quantity	2000
