Product Overview

Smart Energy-Efficient Lighting

This T8 LED tube light features an integrated motion sensor, enabling automatic on/off functionality for significant energy savings. Designed as a direct, high-efficiency replacement for traditional fluorescent tubes, it offers uniform light distribution through a specialized frosted diffuser. It is an ideal solution for areas requiring intermittent lighting, such as corridors, stairwells, and parking garages.

Technical Specifications

Sensor Technology	PIR / Microwave
Tube Standard	T8
Automatic Operation	Yes

Key Features

Suitable Environments

- Corridors
- Stairwells
- Parking garages
- Areas with intermittent occupancy
