

TAF Series Electronic Components

These are TAF series electronic components. The components feature different specifications, including TAF-16MF, TAF-16MFD, and TAF-11MF.

Overview

TAF Series Components

The TAF series offers a versatile range of electronic components designed for reliable performance in various applications. This series includes multiple model variations to suit specific technical requirements. These components are engineered for precision and durability, making them suitable for professional electronic assembly and integration.

Technical Specifications

Available Models

- TAF-16MF
- TAF-16MFD
- TAF-11MF

Part Numbers

Model	Part Code
TAF-16MF	80031204
TAF-16MFD	80040130
TAF-11MF	80040130
