

Tamper-Resistant Domed Head Barrier Bolt

This high-strength barrier bolt is designed for secure fastening in demanding applications. It features a domed head for tamper resistance and a coarse thread for reliable grip, ideal for security barriers and protective structures.

Product Overview

High-Security Barrier Fastening

This high-strength barrier bolt is engineered for secure fastening in demanding environments. Featuring a tamper-resistant domed head and a coarse thread design, it provides a reliable, stable grip for critical security infrastructure. Constructed from durable steel with a corrosion-resistant finish, it ensures long-lasting performance and structural integrity in outdoor applications.

Technical Specifications

Head Style	Domed Head
Thread Pattern	Coarse Thread

Material & Finish

Material	Steel
Surface Finish	Corrosion-resistant

Application & Features

Typical Applications

- Security barriers
- Fencing
- Protective structures

Key Features	Tamper-Resistant, High-Strength, Corrosion-Resistant, Secure Fastening
