

Taper Button Drill Bit

This taper button drill bit is designed for demanding drilling applications. It features durable tungsten carbide buttons for extended wear life and efficient rock penetration.

Product Overview

Advanced Drilling Performance

This taper button drill bit represents an advanced solution for demanding drilling operations, outperforming traditional chisel and cross-bit designs. Featuring hot-pressed tungsten carbide buttons, it delivers superior drilling efficiency and extended service life. It is specifically engineered to handle hard and very hard rock formations with consistent results.

Technical Specifications

Bit Configurations

- Button bit
- Retrac bit
- Drop center
- Reamer bit
- Guide bit

Diameter Range

38 mm Minimum Diameter	127 mm Maximum Diameter
----------------------------------	-----------------------------------

Available Thread Types

R22, R25, R28, R32, R38, T38, T45, T51, ST58, GT60

Logistics & Supply

Packaging

Carton

Monthly Production Capacity

30000 pcs
