

Thread Tap Set

This set includes a taper tap, a plug tap, and a bottoming tap, each serving a specific purpose in thread creation. Constructed from high-speed steel (HSS), these taps offer durability and precision for use with machine tools.

Overview

Precision Threading Solutions

This professional-grade thread tap set is engineered for creating high-precision internal screw threads in various materials. Constructed from durable high-speed steel (HSS), the set ensures long-lasting performance and consistent threading results. Designed for machine tool applications, this kit includes a comprehensive range of taps to handle starting, intermediate, and blind-hole threading tasks with ease.

Technical Specifications

Material

High-Speed Steel (HSS)

Shank Type

Fine Shank

Kit Contents

Included Tap Types

- Taper Tap (for starting threads)
- Plug Tap (for intermediate threading)
- Bottoming Tap (for blind holes)

Application

Primary Application

Machine Tooling, Internal Threading, Blind Hole Threading
