

Three-Phase Electronic Energy Meter

This is a three-phase, four-wire electronic multi-function energy meter. It is designed to measure electrical energy consumption in compliance with GB/T 17215-2002 and DL/T614-1997 standards.

Product Overview

Professional Three-Phase Energy Measurement

This three-phase, four-wire electronic multi-function energy meter is designed for precise monitoring and management of power consumption. Built for high-reliability industrial and commercial applications, it provides accurate tracking of both active and reactive energy. It adheres to rigorous national standards to ensure performance consistency in demanding electrical environments.

Technical Specifications

Rated Current

1.5 A

Base Current

6 A

Maximum Current

Model Number	DTSD188
Voltage Rating	3x220/380V
Frequency	50 Hz

Measurement Accuracy

Accuracy Classes

Energy Type	Class	Pulse Constant
Active Energy	1	6400 imp/kWh
Reactive Energy	2	6400 imp/kvarh

Standards and Compliance

Compliance Standards	GB/T 17215-2002, DL/T614-1997
----------------------	-------------------------------

Product Features

Key Features

- Three-phase, four-wire configuration
- Multi-function electronic processing
- Communication indicator lights
- Dedicated active and reactive power indicators
