

Three-Phase Four-Wire Electronic Prepaid Energy Meter

This is a three-phase four-wire electronic prepaid energy meter. It operates at 3x220/380V, 3x1.5(6) A, 50Hz, and features 3200 imp/kWh.

Overview

Three-Phase Four-Wire Electronic Prepaid Energy Meter

This electronic prepaid energy meter is designed for precise measurement and management of electrical consumption in three-phase four-wire systems. Engineered for reliability, it supports efficient prepaid billing operations and adheres to strict industry standards. Its robust design ensures accurate data collection, making it an essential component for modern energy metering infrastructure.

Technical Specifications

Pulse Constant

3200 imp/kWh
Impulse Rate

Voltage Rating	3x220/380V
Current Rating	3x1.5(6) A
Frequency	50 Hz

Compliance & Standards

Compliance Standards	GB/T18460.3-2001
Model Identifier	DTSY353
