

Three-Prong Cultivator Hoe with Long Handle

This garden tool features a long yellow handle with a black grip and a stainless steel head. The head incorporates a three-pronged cultivator and a flat hoe blade for efficient weeding, soil turning, and cultivation.

Overview

Versatile Dual-Purpose Garden Tool

This three-prong cultivator hoe is designed for efficient soil management in garden beds and professional landscapes. Featuring a dual-head design with both a three-pronged cultivator and a flat hoe blade, it allows users to switch seamlessly between weeding, soil turning, and cultivation. The long handle is equipped with a comfortable grip to ensure ergonomic use during extended gardening tasks.
