Product Overview

Versatile Three-Room Modular Garden Shed

This high-density polyethylene (HDPE) garden shed features a modular, three-room design that provides flexible storage and workspace solutions for professional and residential environments. Constructed from eco-friendly, 100% recyclable materials, the structure is engineered for durability with full weather resistance, UV protection, and thermal insulation. Designed for quick, 2-hour assembly, it offers a low-maintenance, long-lasting storage solution backed by an 8-10 year warranty.

Material & Construction

Material	High-Density Polyethylene (HDPE)
Sustainability	Eco-friendly, Odourless, 100% Recyclable

Performance & Durability

Resistance Properties

Weather Resistant • UV-Protected • Waterproof • Anti-rot • Anti-aging

Warranty

10 Years
Warranty Coverage

Insulation	Heat & Cold Insulation
