Overview

Designed for Independence

The T408 mobility scooter is an EEC-certified electric vehicle engineered to provide elderly and disabled users with safe, reliable, and comfortable transportation. Featuring a stable three-wheel configuration and an ergonomic 3D-surround seat, it is built for both indoor and outdoor maneuverability. With a range of up to 50km and a powerful 1000W brushless motor, this scooter ensures independence and ease of daily movement.
