

# Tilt and Extendable TV Wall Mount for 42-80 inch Screens

This slim, extendable mount keeps TVs as close to the wall as 64mm or extends fully up to 498mm. The large extension allows users to access cables and components behind the screen.

## Product Overview

### Versatile Viewing Experience

This professional-grade TV wall mount provides a flexible solution for 42 to 80-inch displays, supporting weights up to 50kg. Engineered with a robust steel construction, it offers 180-degree swivel and tilt adjustments to eliminate screen glare and ensure the perfect viewing angle. The design features a versatile extension range, allowing for easy access to cables and components behind the screen while maintaining a sleek, low-profile look.
