

Titanium Spark Plug for Car and Motorcycle Engines

This titanium spark plug provides stable ignition for car and motorcycle engines. Its design ensures high performance and efficient combustion.

Product Overview

High-Performance Engine Ignition

This advanced spark plug is designed to provide stable ignition and high-performance combustion for both cars and motorcycles. Engineered with a 95% pure alumina insulator and a nickel-plated housing, it offers superior resistance to heat shock, oxidation, and corrosion. The precision construction ensures a gas-tight fit, contributing to smoother acceleration and improved fuel economy for a wide range of engines.

Technical Specifications

Insulator Material	95% Pure Alumina
Housing Finish	Nickel Plated
Sealing Technology	Conductivity glass inner sealing

Performance Features

Quality Standards

High Performance • Advanced Design • Abrasion Resistant

Key Benefits

Stable Ignition, Heat Shock Resistant, Corrosion Resistant, Gas-tight Fit, Fuel Efficient

Compatibility

Compatible Engines

- Car Engines
- Motorcycle Engines
