

Toolbox Style Display Freezer

This toolbox display freezer combines tool storage with a refrigerated display. It features drawers for tools, a transparent door for showcasing items, and temperature control.

Overview

Versatile Toolbox Style Refrigeration

This innovative display freezer features a unique toolbox-inspired design, making it an excellent choice for specialized retail environments or themed display areas. It provides a generous 50L capacity across three efficient drawers, keeping items perfectly chilled between 0-10°C. With integrated heavy-duty wheels and a durable diamond plate aesthetic, this unit offers both high-performance cooling and industrial-grade mobility for your business needs.
