Overview

High-Efficiency Top Loading Mini Washing Machine

This fully automatic top-loading washing machine is designed for versatility and efficiency, offering a compact footprint with a surprisingly large wash capacity. It features advanced fuzzy control technology that automatically detects garment weight and water levels to optimize performance. With specialized cycles like 3D Waterfall and Tub Clean, it ensures thorough cleaning while maintaining the longevity of the appliance.

Core Features

NF Full Fuzzy Control System

- Weight Self-inspection: Automatically adjusts water level based on load
- Water Level Self-inspection: Adds water dynamically based on drum changes
- Balance Self-inspection: Adjusts garment distribution during spinning

Advanced Technologies

3D Waterfall, Magic Filter, Fuzzy Control, Auto Unbalance Detection, Tub Clean, Air Drying
