

Top-Mount Refrigerator

This top-mount refrigerator has a total capacity of 238L, with a fridge and freezer. It uses R600a refrigerant.

Product Overview

Versatile Cooling Solutions

This series of refrigerators offers a range of capacities and cooling performance options to suit diverse storage needs. Designed with a convenient bottom-freezer configuration, these units incorporate efficient R600a refrigerant technology for reliable operation. With varying models available, including specialized soft-freezer and variable temperature options, these refrigerators provide precise climate control for professional environments.

Capacity and Performance

Key Capacity Metrics

238 L

Total Capacity (Standard)

246 L

Total Capacity (Max)

7.5 Kg/24h

Max Cooling Capacity

Refrigerant

R600a

Technical Specifications

Model Specifications

Model	Total Capacity (L)	Power (W)	Weight (kg)
BCD-238S	238	88	75
BCD-238SF	238	105	75
BCD-238DF	238	105	76
BCD-238HF	238	105	72
BCD-246DE	246	105	77

Power Consumption Range

0.46 - 0.55 KW.h/24h

Design and Dimensions

Color Options

TGR, TGW, TGC, TMT

Standard Dimensions (W*D*H)

590 x 585 x 1780 mm

BCD-238HF Dimensions (W*D*H)

590 x 585 x 1700 mm
