Product Overview

Precision-engineered design for direct replacement and optimal performance.

High-Performance Strut Mount for Renault Clio

This top strut mount is precision-engineered for Renault Clio vehicles, providing a secure, vibration-dampening connection between the strut assembly and the vehicle chassis. Constructed from premium steel and natural rubber, the mount ensures improved comfort, stability, and significantly reduced jitter during driving. Each unit features an electrophoretic coating for superior corrosion resistance and durability, designed for a direct-fit, original-location installation.

Technical Specifications

Comprehensive view of high-quality suspension components including strut mounts.

Materials	Metal with Rubber
Fitment	Direct Replacement
Quality Certifications	ISO, IATF 16949:2016
Warranty	12 months

Supply Chain

Minimum Order Quantity	100 pcs
Lead Time	45-60 days
Trade Terms	EXW, FOB, CIF
OEM/ODM	Yes

Key Advantages

Performance Benefits

- Resolve jitters
- Improve comfort
- Improve stability
- Long life span
