

Torque Rod Suspension Bushing

This heavy-duty torque rod bushing is designed for optimal performance and durability in demanding automotive applications. Constructed from high-quality materials, it provides reliable suspension support and reduces vibration for enhanced stability.

Product Overview

Heavy-Duty Suspension Component

This torque rod bushing is engineered for optimal performance and durability in demanding heavy-duty automotive applications. Designed to provide reliable suspension support, it ensures enhanced vehicle stability and significantly reduced vibration. Built for long-lasting performance and easy installation, this component is essential for maintaining control and a smooth ride.

Compatibility

Compatible Makes

Scania, RVI, MAN, DAF, Iveco

Key Features

Performance Benefits

- Robust design for enhanced stability
- Engineered to withstand extreme conditions
- Reduces road-induced vibration
- Optimized for quick and easy installation
