Product Overview

Multifunctional Desktop Companion

This versatile 4-in-1 desktop accessory seamlessly integrates a wireless charging pad, a convenient phone stand, and a touch-controlled night light into a single, space-saving unit. Designed for modern workspaces and nightstands, it supports efficient wireless charging for Qi-enabled devices while offering an additional USB pass-through port to power a second device simultaneously. The sleek, foldable design includes intuitive touch controls for the ambient lighting, making it an essential tool for organization and convenience.
