

Touchless Automatic Soap Dispenser

This touchless dispenser has a 400ml capacity and operates automatically via a sensor. It is suitable for dispensing liquid soap or sanitizer.

Product Overview

Touchless Automatic Soap Dispenser

This modern touchless automatic soap dispenser is designed for hygiene and efficiency in both bathroom and kitchen environments. Featuring a smart electronic sensor, it provides a seamless, hands-free experience that is gentle on the skin. The transparent reservoir allows for easy monitoring of soap levels, ensuring you never run out unexpectedly.

Key Features

- Hands-free electronic sensor operation
- Gentle dispensing mechanism
- Transparent reservoir for level monitoring
- Cost-effective soap usage
