

# Touchless Sensor Trash Bin

This sensor trash bin offers a hygienic waste disposal solution. The touchless sensor automatically opens the lid when motion is detected, preventing the spread of germs.

## ADDITIONAL IMAGES

## Product Overview

### Hygienic Hands-Free Disposal

This touchless sensor trash bin offers a convenient and sanitary waste management solution for modern environments. Utilizing advanced infrared motion sensor technology, the lid opens automatically when motion is detected, minimizing contact and preventing the spread of germs. Its durable stainless steel construction ensures a sleek, modern aesthetic while providing resistance to fingerprints and smudges, making it an ideal choice for kitchens, bathrooms, and office spaces.

## Key Features

### Core Features

- Infrared motion sensor technology
- Automatic lid opening and closing
- Manual override buttons
- Ring liner for bag security
- Fingerprint-resistant stainless steel

## Technical Specifications

Power Source	Battery powered
Body Material	Stainless steel
Suitable Environments	Kitchen, Bathroom, Office
