

Touchless Sensor Trash Can

This touchless trash can offers hands-free operation thanks to its infrared sensor technology. Designed for indoor use, it is suitable for kitchens, bathrooms, or offices.

Product Overview

Touchless Convenience for Modern Spaces

This automatic sensor trash can features a sleek brushed stainless steel body, offering a durable and hygienic waste disposal solution. Designed for touch-free operation, the integrated infrared sensor allows for seamless opening and closing, making it ideal for high-traffic areas. It is a versatile choice suitable for kitchens, bathrooms, and professional office environments.
