

Tower Air Purifier for Home or Office

This compact, tower-style air purifier is designed for home or office use. It features multiple filtration stages, including a pre-filter, HEPA filter, and activated carbon filter, to remove dust, pollen, odors, and other airborne particles.

Product Overview

Clean Air, Compact Design

The SY-W01 tower air purifier is an elegant, compact solution for maintaining indoor air quality in homes or professional offices. Its cylindrical architecture facilitates efficient 360-degree air intake, ensuring comprehensive coverage of your space. Equipped with a multi-stage filtration system including HEPA and activated carbon, it effectively eliminates dust, pollen, and odors to promote a healthier environment.
