Product Overview

High-Performance Headlight Assembly

This replacement headlight assembly is engineered specifically for the 2010 Corolla, ensuring a precise fit and reliable performance that meets or exceeds OEM standards. Featuring a durable polycarbonate lens and a multi-reflector design, it provides optimal light transmission and impact resistance for improved night driving safety. The complete assembly includes high and low beam functionality, an integrated turn signal, and an amber side marker, making it a comprehensive solution for vehicle restoration.

Technical Specifications

Factory Code	wt-15-170
Lens Material	Clear Polycarbonate
Design Features	Multi-reflector, High/Low Beam, Integrated Turn Signal, Amber Side Marker

Compatibility & Installation

Installation

- Direct replacement design
- Includes all necessary mounting points
- Includes all necessary components for easy installation

Compatible Vehicle	2010 Corolla
