

Track Type Wood Trimming Machine

This track type trimming machine is designed for precision woodworking. It has a 6mm collet diameter and a no-load speed of 30000r/min for efficient trimming.

Product Overview

Precision Woodworking Performance

The 9501U track type trimming machine is a versatile and efficient tool engineered for professional precision woodworking. It combines a high-speed motor with a compact, track-based design to ensure smooth and accurate results. Built for reliability, this machine is an essential addition to any wood processing workshop.

Technical Specifications

Rated Input Power

500 W

Rated Input Power

No-Load Speed

30000 r/min

No-Load Speed

Collet Diameter	6 mm
Rated Voltage	220V ~
Rated Frequency	50/60Hz

Logistics

Packing Size	45.5 x 30.5 x 36.5 cm
