

Tractor Rear Assembly Bracket 3G700-41640 for Kubota M6040

This rear assembly bracket is designed for Kubota M6040 tractors. It provides essential support and stability to the tractor's rear components.

Product Overview

Robust construction ensuring durability for maintenance and repair of agricultural tractors.

Tractor Rear Assembly Bracket

This high-quality rear assembly bracket is precision-engineered to meet rigorous agricultural standards. Designed as a direct spare part for specific tractor models, it ensures structural integrity and consistent performance in demanding field conditions. Its robust construction facilitates seamless integration and long-term reliability for your machinery maintenance needs.

Technical Details

Precision-engineered rear assembly bracket designed for reliable performance and optimal fit in agricultural machinery.

Part Number

3G700-41640

Compatibility

Compatible Tractor Models

M6040

Application Scope

Application Category

Agricultural machinery rear assembly
