

Tractor Rear Axle Assembly Holder

This rear axle assembly holder fits Kubota L4708 and L5018 tractor models. It provides secure mounting and support for the rear axle assembly.

Product Overview

Tractor Rear Axle Assembly Holder

This high-quality rear axle assembly holder is a precision-engineered spare part designed for reliable performance in agricultural tractors. Built for durability, it provides essential support for the rear axle assembly, ensuring proper drivetrain alignment and operational efficiency. It is specifically designed to facilitate seamless maintenance and repair for selected tractor models.

Technical Specifications

Precision-engineered rear assembly holder for enhanced tractor durability.

Part Number	TC432-13603
Compatible Tractor Models	L4708, L5018
Material	Cast metal
Key Function	Mounting and support for the rear axle assembly
