

Transparent Electric Kettle with Green Accents

This electric kettle features a transparent body with green accents. It includes water level markings for easy filling and a modern design.

Product Overview

Modern Transparent Design

This electric kettle combines a sleek, transparent green body with crisp white accents to provide a contemporary aesthetic for any professional or office kitchen. It features clear external water level indicators to ensure precise filling and volume control. Designed for convenience and safety, this unit offers a generous capacity suitable for high-frequency use.
