Triangular Blade Putty Knife with Wooden Handle

This tool features a triangular blade for effective application. It is equipped with a wooden handle for a comfortable grip.

Product Overview

Versatile Professional Putty Knife

This triangular blade putty knife is designed specifically for high-precision masonry and carpentry tasks. Featuring a comfortable wooden handle, the tool ensures ergonomic handling during the application and smoothing of putty, spackle, or other filling compounds. It is an essential addition to any professional toolkit for surface preparation and finishing work.
