

Triplex Sprocket 12 B-3 Z=57

This is a triplex sprocket designed for chain size 3/4" x 7/16" and chain type 12 B-3. It features 57 teeth and is suitable for heavy-duty applications.

Product Overview

Industrial Triplex Sprocket

This triplex sprocket is engineered for precision power transmission within demanding industrial environments. Designed to accommodate 12 B-3 chain types, it offers a robust configuration with 57 teeth to ensure smooth and reliable mechanical performance. Built for heavy-duty applications, this component provides high durability and resistance to wear for sustained operational efficiency.

Technical Specifications

Number of Teeth	57
Chain Type	12 B-3
Chain Pitch	3/4" x 7/16"

Dimensions

Core Dimensions

355.4 mm Outer Diameter (De)	345.81 mm Pitch Diameter (Dp)	110 mm Width (H)	56 mm Bore Diameter (d)
--	---	----------------------------	-----------------------------------

Additional Dimensions

Parameter	Value
C	2
D	25
h	349.8
L	10.8

Compatibility

Application Compatibility	Triplex, Stock Sprocket, Heavy-duty, Industrial Machinery
