

# Truck Mounted Mobile Crane

This heavy-duty mobile crane is mounted on a truck chassis. It is designed for lifting and moving heavy loads in construction and industrial applications, featuring a telescopic boom and hydraulic lifting system.

## Overview

### Heavy-Duty Mobile Lifting Solution

This truck-mounted mobile crane is engineered for demanding construction and industrial lifting tasks. It features a robust telescopic boom and a high-performance hydraulic lifting system, ensuring precision and reliability on site. Equipped with stabilizing outriggers, this unit provides the necessary safety and support for heavy load operations in complex infrastructure projects.

## Technical Specifications

Model Designation	QY25K5C
Lifting Capacity Class	25 tons

## Features

### Key Features

- Telescopic boom design
- Hydraulic lifting system
- Integrated outriggers for stability
- Truck-mounted chassis

## Application

Suitable Environments	Construction Sites, Infrastructure Projects, Industrial Applications
