Overview

Professional Grade Oil Glass Cutter

This precision tool is engineered for high-performance cutting of glass and tiles, featuring a high-quality tungsten carbide wheel for sharp and durable operation. The ergonomic aluminum alloy handle provides an anti-skid grip, ensuring safety and efficiency during extended use. With an integrated oil feed system and a large capacity tank, it maintains consistent lubrication for smooth, professional results.

Cutting Performance

Cutting Wheel Material

Tungsten Carbide • Polished • Carbide Tipped

Primary Applications

Glass Cutting, Tile Cutting

Design & Ergonomics

Ergonomic Features

- Anti-skid handle design
- Ergonomic grip for efficiency
- Safety-focused construction
- Durable alloy bit

Handle Material

Aluminum Alloy

Lubrication System

Oil Feed Mechanism

Inside oil wire core for stabilized output

Oil Tank Feature

Full fill oil tank designed for long-duration operation
