

Turbo Rim Diamond Cutting Disc

This professional turbo rim diamond cutting disc is designed for cutting concrete, brick, stone, granite, sandstone, and hard ceramics in both dry and wet conditions. It is suitable for a variety of materials, providing clean and efficient cuts.

Product Overview

Professional Turbo Rim Diamond Cutting Disc

This professional-grade diamond cutting disc is engineered for high-performance cutting in both dry and wet applications. It is optimized for versatility, allowing for clean, efficient cuts across a variety of demanding materials including concrete, brick, stone, granite, sandstone, and hard ceramics. Built for durability and precision, it meets rigorous standards for professional construction and masonry environments.

Technical Specifications

Maximum Speed (RPM)

13200 RPM
Maximum RPM

Maximum Surface Speed

80 m/s

Dimensions

115 x 7 x 22.23 mm

Compatibility

Application Method

Dry Cutting • Wet Cutting

Suitable Materials

Concrete, Brick, Stone, Granite, Sandstone, Hard Ceramics

Logistics

Packaging Available

- Blister card
- Double blister card
- PVC pouch
- Skin card
- Color box
